## SKILLS

Data Structures and Algorithms

HTML

CSS

Javascript

MySQL

React.js

Bootstrap

OOPS

C++

## EDUCATION

**BTech**

**NIT, Manipur**

2021-2025

CGPA : 9.20

**12th**

**Alpha Vidhya Sankul**

2020

Percentage : 78.15

**10th**

**Alpha Vidhya Sankul**

2018

Percentage : 92

## OTHER TECH SKILLS

Operating System,

DBMS,

Compilers,

Problem Solving,

Time Management,

Creativity

## Experience

**Intern**

**Bharat Intern**

**June 2024 - July 2024**

- Developed a Registration form, Basic blog website, and Basic Money tracker website using HTML, CSS, Node.js, and MongoDB.

## PROJECT

**Gemini AI Clone**

- GitHub Deployed Link : <https://shital193.github.io/Gemini-clone/>
- Technologies Used : HTML, CSS, Javascript, React js
- Implemented React hooks, useState and useContext, for efficient state management and component communication.
- Integrated the Gemini API to fetch real-time data, enhancing the functionality and interactivity of the application.
- Ensured the application is fully responsive, providing an optimal user experience across various devices and screen sizes.
- Designed an intuitive and user-friendly interface, improving navigation and overall user engagement.

**Interactive Code Editor**

- GitHub Deployed Link : <https://shital193.github.io/CodePen-Website/>
- Technologies: HTML, CSS, React, React Codemirror2, Material-UI
- Implemented interactive HTML, CSS, and JavaScript editors with syntax highlighting using React-Codemirror2.
- Enabled live code preview in an iframe with a simulated delay for a smoother user experience.
- Utilized the React Context API for efficient state management and synchronization across editor components.
- Designed a modern and responsive UI using Material-UI, ensuring compatibility across various devices.
- Added a delay mechanism to optimize performance and simulate code execution.

## ACHIEVEMENTS:

**Winner, CodeRush Competition 2024**

- Secured first place in the CodeRush competition organized by AlgoUniversity
